

Ruby trunk - Feature #7060

Broaden support for chmod

09/24/2012 03:10 AM - tonysidaway (Tony Sidaway)

Status:	Open	
Priority:	Normal	
Assignee:		
Target version:	next minor	
Description		
<p>Currently file permission bit features in all Ruby versions include only chmod and (if supported by the target platform's C library) lchmod. lchmod is not supported by all platforms, but where it is not the Posix function fchmodat usually supplies similar functionality. Suggest that this be included.</p>		
<p>See http://pubs.opengroup.org/onlinepubs/9699919799/functions/chmod.html</p>
