

Ruby master - Bug #7062

Rdoc for String#=~

09/24/2012 04:46 AM - stomar (Marcus Stollsteimer)

Status: Closed	
Priority: Normal	
Assignee: zzak (Zachary Scott)	
Target version: 2.0.0	
ruby -v: ruby 1.9.3p194 (2012-04-20 revision 35410) [i686-linux]	Backport:
Description =begin This patch clarifies the different behaviour for str =~ regexp and regexp =~ str regarding captured strings and assigning to local variables. (See also issue #7042 .) Added text: Note: str =~ regexp is not the same as regexp =~ str. Strings captured from named capture groups are not assigned to local variables in the first case. =end

History

#1 - 09/25/2012 03:14 AM - zzak (Zachary Scott)

- Assignee changed from *drbrain (Eric Hodel)* to *zzak (Zachary Scott)*

Thank you stomar, I've discussed this with Eric and will be happy to commit it.

#2 - 09/25/2012 03:14 AM - zzak (Zachary Scott)

- Target version set to 2.0.0

#3 - 10/07/2012 04:38 AM - zzak (Zachary Scott)

- Status changed from *Open* to *Closed*

- % Done changed from 0 to 100

This issue was solved with changeset r37109.
Marcus, thank you for reporting this issue.
Your contribution to Ruby is greatly appreciated.
May Ruby be with you.
