Ruby master - Bug #717

Unneccesary statement in lib/irb.rb

11/07/2008 10:12 AM - manveru (Michael Fellinger)

</table>

Description
=begin
In lib/irb.rb in the eval_input method around line 110, there is a @context.prompt_i too much, else doesn't care. This is the case in all versions of Ruby back to 1.8.2 (that's as far as i cared to look).

The context:

```ruby
if ltype
  f = @context.prompt_s
elsif continue
  f = @context.prompt_c
elsif indent > 0
  f = @context.prompt_n
else @context.prompt_i
end
f = @context.prompt_i
=end
```

History
#1 - 11/07/2008 12:37 PM - matz (Yukihiro Matsumoto)
- Status changed from Open to Closed
- % Done changed from 0 to 100

=begin
Applied in changeset r20129.
=end
