Ruby master - Bug #717

Unneccesary statement in lib/irb.rb

11/07/2008 10:12 AM - manveru (Michael Fellinger)

Status: Closed
Priority: Normal

Target version: 2.0.0
ruby -v:

Description

=begin
In lib/irb.rb in the eval_input method around line 110, there is a @context.prompt_i too much, else doesn't care. This is the case in all versions of Ruby back to 1.8.2 (that's as far as i cared to look).

The context:

if ltype
  f = @context.prompt_s
elsif continue
  f = @context.prompt_c
elsif indent > 0
  f = @context.prompt_n
else @context.prompt_i
end

=end

History
