Description

Until the automated svn -> github gateway can be resuscitated, can I cajole someone (Shyouhei-san?) into doing a Monday and Friday manual sync for just the ruby_1_9_3 and trunk branches?

I know this non-automation is painful, so a MEGA thanks-in-advance.

Hi, when I saw Evan at RubyConf yesterday he said he's doing the action that day so I waited.

He was super-busy at that conference so it's quite natural he's still working on that. But it's OK. I'll re-sync the repo on Monday if he's still busy.
