Ruby master - Bug #7277

mingw: Makefile no longer links ruby.res.o with PROGRAM or WPROGRAM

11/05/2012 04:20 AM - luislavena (Luis Lavena)

Status: Closed
Priority: Normal
Assignee: nobu (Nobuyoshi Nakada)
Target version: 2.0.0
ruby -v: ruby 2.0.0dev (2012-11-01) [x64-mingw32]

Description
=begin
Just recently noticed that when linking ruby.exe or rubyw.exe, the icon defined in ruby.rc (or rubyw.rc) is not linked in.

The following is the command line make ruby.exe V=1 generates:

-LC:/Users/Luis/Code/oneclick/rubyinstaller/sandbox/libffi/lib -Wl,--stack,0x00200000,--enable-auto-import main.o -lx64-msvcruby200 -lsfell32 -lw2_32 -limagehlp -lshlwapi -o ruby.exe

However is not linking ruby.res.o with it.

This seems to be unique to trunk as ruby_1_9_3 still was able to associate the icon with the executable.

Also this didn't affect DLL creation, as it still included the rc information for it (it linked properly)

Any ideas?
Thank you

Thank you Hiroshi, worked like a charm.

I'll release 2.0.0-preview1 as is mentioning this small detail in the experimental notes.

Thank you again.
