Pathname#cleanpath default consider_symlink to true

11/19/2012 01:15 PM - zzak (Zachary Scott)

Status: Rejected
Priority: Normal
Assignee: akr (Akira Tanaka)
Target version: 2.6

Description

=begin
from github: https://github.com/ruby/ruby/pull/213

(Pathname#cleanpath is a purely lexical cleanup of a unix path, to remove useless syntax and return an equivalent path. However, the current default algorithm makes choices that can return semantically different paths.)

(This patch sets the default algorithm to the safe alternative, guaranteeing the return of a semantically identical path. The unsafe/aggressive algorithm remains and can be enabled where appropriate.)

=end

History

#1 - 11/24/2012 11:03 AM - mame (Yusuke Endoh)
- Status changed from Open to Assigned
- Target version changed from 2.0.0 to 2.6

#2 - 04/04/2013 10:51 PM - akr (Akira Tanaka)
- Status changed from Assigned to Rejected

I reject this issue because it is incompatible.
Also, I feel the conservative algorithm is not so useful because it cannot remove .. from foo/../bar.
