While I worked around this, the warning itself looks like a bug in our regexp engine (Onigmo?).

#### #4 - 12/14/2012 04:49 PM - knu (Akinori MUSHA)

Onigmo doesn't have the code for detecting duplication in character class, so this problem seems to be on our own.

I narrowed the problem down:

```
% ruby@2.0.0 -EUS-ASCII -W2 -e '/[\D]/=~'
-e:1: warning: character class has duplicated range: /[\D]/
% ruby@2.0.0 -EUS-ASCII -W2 -e '/[\W]/=~'
-e:1: warning: character class has duplicated range: /[\W]/
```

Looks like CTYPE + NOT = FAIL.
