

Backport193 - Backport #7558

Small docs bug for Regexp::union

12/14/2012 12:26 AM - alex_gaynor (Alex Gaynor)

Status:	Third Party's Issue
Priority:	Normal
Assignee:	usa (Usaku NAKAMURA)
Description	
The docs for Regexp::union (http://ruby-doc.org/core-1.9.3/Regexp.html#method-c-union) state:	
Regexp.union(/dogs/, /cats/) #=> /(?-mix:dogs) (?-i-mx:cats)/	
This is, however, incorrect, /cats/ doesn't have the /i flag, either it should be added or the expected result should be changed.	

History

#1 - 12/14/2012 12:42 AM - steveklabnik (Steve Klabnik)

I went to go fix this, and I found that it's fixed in trunk: <https://github.com/ruby/ruby/blob/trunk/re.c#L3254>

I'm not sure if this justifies a backport into 1.9.x, but I'd be willing to write the patch if someone can remind me of the procedure.

#2 - 12/14/2012 01:28 AM - zzak (Zachary Scott)

For what it's worth, here is the original patch: <https://github.com/ruby/ruby/commit/cf9bdd0>

Not sure what revision that is though. And seeing as how it was originally committed 5 years ago, I'm surprised this bug still exists.

Steve, only documentation I found on backporting: <https://bugs.ruby-lang.org/projects/ruby/wiki/HowToBackport>

#3 - 12/21/2012 11:14 PM - usa (Usaku NAKAMURA)

- Tracker changed from Bug to Backport
- Project changed from Ruby master to Backport193
- Category deleted (doc)
- Status changed from Open to Assigned
- Assignee set to usa (Usaku NAKAMURA)

#4 - 12/25/2012 09:50 AM - usa (Usaku NAKAMURA)

- Status changed from Assigned to Third Party's Issue

seems it's only on ruby-doc.org.
