Description

I believe the documentation for the (ERB::new|URL:http://ruby-doc.org/stdlib-1.9.3/libdoc/erb/rdoc/ERB.html#method-c-new)) method could be improved. Specifically, the list of available arguments for the ((trim_mode))) parameter doesn't seem complete. I found you can use the option ("-")) to make the tags ((%(<%-%)))) work. (by the way... It looks like those tags aren't documented either).

Without that option the (%(<%-%))) tags don't work properly. I made several tests and can confirm the issue affects both Ruby 1.8.7 and 1.9.3.
I've attached a short file (70 lines including whitespace) to reproduce the problem. Comments indicate what goes wrong, and I have provided a commented out line that works instead (as it uses the undocumented (trim_mode="-")) option).

I came across the issue while working on a plain ruby script, but I used the same code in a Rails app with no problems at all, so I guess that ERB text is parsed in Rails with (trim_mode="-")) by default.

History

#1 - 12/23/2012 01:53 PM - zzak (Zachary Scott)
Subject changed from Documentation, Std-lib, ERB to Document ERB::new trim_mode parameter
Assignee set to zzak (Zachary Scott)
Target version changed from 3.0 to 2.0.0

#2 - 12/23/2012 04:07 PM - zzak (Zachary Scott)
Status changed from Open to Closed
% Done changed from 0 to 100

This issue was solved with changeset r38572.
Tom, thank you for reporting this issue.
Your contribution to Ruby is greatly appreciated.
May Ruby be with you.
