**Description**
Using a custom require method, I ran into an issue with RubyGems b/c it is using autoload:

Seeing that autoload is now discouraged from standard libs (http://blade.nagaokaut.ac.jp/cgi-bin/scat.rb/ruby/ruby-core/41149), when might we see it removed?

**History**

#1 - 01/18/2013 05:35 AM - drbrain (Eric Hodel)
- Status changed from Open to Assigned
- Assignee set to drbrain (Eric Hodel)
- Priority changed from Normal to 3
- Target version changed from 2.6 to 3.0

I don't have any plans to remove autoload at this time.

#2 - 07/03/2013 06:19 AM - drbrain (Eric Hodel)
- Status changed from Assigned to Rejected

Due to notes in #5653 it seems that autoload is fixed. In the interest of pushing towards a definitive answer from matz about autoload's future I am rejecting this issue.

Please restore it to assigned if matz decides autoload will be removed.
