

## Ruby master - Bug #7840

### -Wdeclaration-after-statement is valid for C/ObjC but not for C++

02/13/2013 10:19 PM - Hanmac (Hans Mackowiak)

<b>Status:</b>	Open	
<b>Priority:</b>	Normal	
<b>Assignee:</b>	nobu (Nobuyoshi Nakada)	
<b>Target version:</b>		
<b>ruby -v:</b>	ruby 2.0.0dev (2013-02-13 trunk 39224) [x86_64-linux]	<b>Backport:</b> 2.3: UNKNOWN, 2.4: UNKNOWN, 2.5: UNKNOWN

#### Description

because of the new flags in warnflags i get this following errors:

cc1plus: warning: command line option '-Wdeclaration-after-statement' is valid for C/ObjC but not for C++ [enabled by default]

cc1plus: warning: command line option '-Wimplicit-function-declaration' is valid for C/ObjC but not for C++ [enabled by default]

its because my gems are written in C++ and not in C, so i think this flags should not be used when the variable is used for both C and C++

#### History

##### #1 - 02/17/2013 02:14 PM - ko1 (Koichi Sasada)

- Target version set to 2.6

- Category set to build

- Assignee set to nobu (Nobuyoshi Nakada)

##### #2 - 12/25/2017 06:15 PM - naruse (Yui NARUSE)

- Target version deleted (2.6)

##### #3 - 06/02/2020 04:41 PM - jeremyevans0 (Jeremy Evans)

declaration-after-statement warnings were removed in [ec336fb40e4df0c8615e584fbefb5e9e572cb9ec](#). implicit-function-declaration warnings are still present, though.
