

## Ruby trunk - Bug #7940

### Mistaken use of inline rescues in stdlib

02/24/2013 09:22 PM - Mon\_Ouie (Mon ouïe)

<b>Status:</b> Closed	
<b>Priority:</b> Normal	
<b>Assignee:</b> dblack (David Black)	
<b>Target version:</b> 2.1.0	
<b>ruby -v:</b> ruby 1.9.3p392 (2013-02-22 revision 39386) [x86_64-linux]	<b>Backport:</b>
<b>Description</b> Hey,  There are two uses of inline rescues in stdlib that look dubious. They are unlikely to ever cause any harm, but still. They've been there for a while now, and are still in trunk. I attached a patch that changes both of them.  In cgi/session.rb: <pre>def delete   File::unlink @path+".lock" rescue nil   File::unlink @path+".new" rescue nil   File::unlink @path rescue Errno::ENOENT end</pre> The rescue part should be on the next line (this has been introduced in a commit that changed indentation).  In scanf.rb:660: <pre>seek(start_position + matched_so_far, IO::SEEK_SET) rescue Errno::ESPIPE</pre> was more likely meant to just silence Errno::ESPIPE exceptions.

- Status changed from Open to Assigned

**#3 - 04/19/2013 12:18 PM - xibbar (Takeyuki FUJIOKA)**

I am maintainer of cgi\* but not maintainer of lib/scanf.rb

May I commit with lib/scanf.rb ?

**#4 - 04/19/2013 12:24 PM - naruse (Yui NARUSE)**

May I commit with lib/scanf.rb ?

Commit your part and assign this to dblack.

**#5 - 04/19/2013 01:51 PM - xibbar (Takeyuki FUJIOKA)**

Sorry I was misunderstanding that lib/scanf.rb does not have a maintainer.

**#6 - 04/19/2013 02:25 PM - xibbar (Takeyuki FUJIOKA)**

I've tweeted [@david\\_a\\_black](#) asking him to check this ticket.

He has been inactive for a long time, though.

**#11 - 09/24/2013 09:40 PM - charliesome (Charlie Somerville)**

Bump.

Should dblack be discharged under the 3 month rule? He has not been active for quite some time.
