

Ruby master - Feature #7981

ruby does not respect --

02/28/2013 08:40 AM - mpapis (Michal Papis)

Status: Open	
Priority: Normal

Target version:	
Description =begin in ((%ruby --help%)) I have found: Usage: ruby [switches] [--] [programfile] [arguments] so I have tried this example: <pre>\$ echo 'puts :ok' ruby -- --params > ruby: No such file or directory -- --params (LoadError)</pre> I have assumed that (([%arguments%])) are independent from (([%programfile%])) In the current state of code the help message should be: <pre>Usage: ruby [switches] [--] [programfile [arguments]]</pre> But I would prefer that it would be fixed and anything after (([%--%])) that is not program gets ignored, so we can use the shell style: <pre>\$ echo 'echo "args:\$*:"' bash -s -- --params > args:--params:</pre> =end
