

## Backport200 - Backport #8019

### Ruby 2.0.0p0 does not list remote gems anymore

03/05/2013 06:55 PM - rubycoder (Ike Miller)

<b>Status:</b>	Closed
<b>Priority:</b>	Normal
<b>Assignee:</b>	nagachika (Tomoyuki Chikanaga)
<b>Description</b>	
gem list --remote --source <a href="http://gems.github.com">http://gems.github.com</a>	
-just prints "**** REMOTE GEMS ****" then sits in an endless loop; same for other gem-repositories.	
-tested it with 1.9.2 from same PCs: worked fine, so it is really a 2.0.0 problem	
-tested it with 32bit and 64bit installers on different PCs (XP & Win7/64): always same result, reproducible error
