

Ruby trunk - Bug #8056

Random segmentation faults in Tempfile

03/09/2013 06:38 PM - morgoth (Wojciech Wnętrzak)

Status: Closed	
Priority: Normal	
Assignee:	
Target version:	
ruby -v: ruby 2.0.0p0 (2013-02-24 revision 39474) [x86_64-linux]	Backport:
Description I'm getting random segmentation faults after switch to Ruby 2.0.0 I cannot reproduce it on my local machine, but it often happens when deploying to Heroku. This is rails app with lot of other gem dependencies, so it might be hard to find responsible code for that. Already submitted to rails bug tracker: https://github.com/rails/rails/issues/9608 Here is a stacktrace: https://gist.github.com/morgoth/a63eb1feebf5139e9537	
Related issues: Is duplicate of Ruby trunk - Bug #8100: Segfault in trunk Closed 03/15/2013
