Hello, Eric.

Thank you for providing a patch.

BTW, do you have a plan to versioning of bundled RubyGems?
Currently RubyGems 2.1 is bundled in trunk.
In 2.0.0, bundled RubyGems' version will be 2.0.x, or migrate to RubyGems 2.1 in future?
In other words, RubyGems 2.0.x series are continuously maintained?

#4 - 07/16/2013 10:01 AM - drbrain (Eric Hodel)

I plan to continue to maintain 2.0.x series (I have two bugs to fix for a 2.0.6 release). RubyGems 2.0.x has had small, easy to fix bugs, so this is not difficult for me.

I do not believe RubyGems 2.1 and newer should be backported to Ruby 2.0.0 as it will add new features.

#5 - 07/23/2013 01:33 AM - nagachika (Tomoyuki Chikanaga)
