I never accepted commit bit to any project in years. I'm not trustworthy/sane enough nor do I want to feel obligated to Ruby.

It should be easier to accept patches from drive-by contributors such as myself, though. IMHO, maintaining ChangeLog in repository makes applying/merging patches harder (vs using commit message + generated changelog in dist tarball).

### #5 - 09/21/2013 08:11 PM - nobu (Nobuyoshi Nakada)

- Status changed from Assigned to Closed

- % Done changed from 0 to 100

This issue was solved with changeset [r43008](#).

Eric, thank you for reporting this issue.

Your contribution to Ruby is greatly appreciated.

May Ruby be with you.
