

Ruby master - Feature #9515

`IO.each` and `CSV.each`

02/12/2014 04:16 PM - sawa (Tsuyoshi Sawada)

Status: Open	
Priority: Normal	
Assignee:	
Target version:	
Description	
In IO class, there are pairs of a class method and an instance method with related function:	
<ul style="list-style-type: none">• IO.read and IO#read• IO.write and IO#write• IO.foreach and IO#each (or its alias IO#each_line)	
For consistency, please make IO.each an alias for IO.foreach.	
The same thing can be said for CSV.each.	

History

#1 - 01/04/2020 05:41 PM - sawa (Tsuyoshi Sawada)

- Description updated

- Subject changed from IO.each (and perhaps CSV.each) to `IO.each` and `CSV.each`
