

Ruby master - Bug #952

rb_obj_not_match documentation is buggy

12/30/2008 10:32 PM - murphy (Kornelius Kalnbach)

Status: Closed	
Priority: Normal	
Assignee:	
Target version: 1.9.1 RC2	
ruby -v:	Backport:
Description	
=begin	
The documentation for Object#!~ is currently incorrect and grammatically wrong, it says:	
/*	
<ul style="list-style-type: none">• call-seq:• obj !~ other => nil	
<ul style="list-style-type: none">• Returns true if two objects does not match, using =~ method. */	
It should be replaced with something like this:	
/*	
<ul style="list-style-type: none">• call-seq:• obj !~ other => true or false	
<ul style="list-style-type: none">• Returns true if two objects do not match (using the =~• method), otherwise false. */	
Patch attached.	
=end	

History

#1 - 01/13/2009 09:31 PM - yugui (Yuki Sonoda)

- Status changed from Open to Closed

=begin
applied in r21493.
=end
